

# THE STORY OF A LESBIAN "MARRIED" COUPLE AND THEIR PICKLE JAR BABIES!

## WHITHER MANKIND?

By Scientix

{**Editorial Note** :-Time on this earth revolves in cycles. There are good times and bad times. During a 'good' cycle, mankind becomes a cow, selfless, loving, giving. In a bad cycle, mankind becomes a wolf-selfish, brutal, hateful, heinous, snatching. **In good times, man goes with Nature, regards it as his Mother, uses it lovingly respectfully and thankfully. In bad times, he twists, tortures, exploits, abuses, crucifies Mother Nature, for his physical and temporal pleasures of the flesh.** Everything he does oppresses Nature. He becomes proud and puffed up that he has delved into and understood all the secrets of Nature. He does not know that whatever he knows of Nature is an infinitesimal part of Reality, almost a shadow-world. He has only scratched the visible layer, below which there are infinite number of layers.

Whatever, little of the little man has explored, he uses it with wolfish disposition, to kill, to destroy. **All the discoveries and inventions of the much boasted 500 years old science are ultimately used as weapons of killing and crime.** He found out some surface secret of the hydrogen atom and used it to produce hydrogen bomb and atom bomb. He scratched the surface of a gene and used that information to make horrifying genetic weapons. He got some very faint glimpse of the outward working of his brain and concluded that the most licentious sexual indulgence is no sin.

During the evil cycle, the devil reins the human psyche. What are decreed as sins by the Men and Women of God since thousands of centuries are boasted to be the matters of progress, pride and pleasure.

Prophets and Seers of Religion have declared that sex is a force required to be controlled through the sacrament of marriage. That divine teaching is grossly and shamelessly violated today with the active help of that monster: "Science". The last issues of this humble Parsi Pukar had articles to show how this divine teaching is proclaimed in Gatha Vahishtoishtha. **Herein below is a real story of homosexuality, which is the final climatic product of the devil's cycle.** St. Paul had declared that the first step of the devil's time is Godlessness and the last is passion of men for men and women for women. Gatha Vohukhshathra declares (in Ha 51-12) that the sodomites - the homosexual and their shamless indulgences create serious obstacles in the divine mission of Spitma Zarathushtra. See how they do it in the present times. - **Editor.**}

This story is from England, once a proud place of beef eaters and sun-never-sets-empire-nutters. (Nutter is the British slang for an eccentric person.) In that honourably principled country, lives a couple - a MARRIED couple - Dawn and Lisa Whiting. But wait... these are both female names! Yes! **In this progressively perfecting world a female can 'marry' a female, and a male, a male.** There are priests and performers of such homo-marriages. The theory is that if you really love a person, your love has to be expressed by doing sex with him or her notwithstanding the fact that he or she may be of the same sex (i.e. gender) and howsoever unnatural or counterfeit this sexual act be. Whenever Satan is allowed by God to have his day for a period of time, he puts it in the mind of the vulnerable that **intense love can be expressed only by and through the genitals!** If you ask what about the love between a mother and child, the Scientific Satan brings in "edipus complex". Freud was a genius appointed by Satan to tell the humans that everything is sex oriented, be it an infant sucking mother's breast or a 'lingam' or 'trishool' of Mahadeo Shanker Bhagwan!

So Dawn and Lisa are a married couple. The high-brow scientific term - not at all vulgar - for them is "Lesbians". The couple has a child, a baby daughter, Terri given birth by Lisa. How's that? One explanation would be that she must have had sex with a male! But no! She is too faithful to her partner, Dawn, to do so. **She had used a syringe to extract some body's male sperm from a pickle Jar!** "Artificial insemination", another of the scientistanic term!

They had married in October 1996. The scientific act had resulted in the birth of Terri somewhere in January 1997. She is now about 20 months old.

The other partner Dawn followed suit. She also had her pickle jar insemination somewhere in December

1997. The story was reported in 'Independent' in May 1997, when Dawn's pregnancy had advanced to 5 months. What happened after May 1997, I do not know. What happened before, is here, based on the said report.

The question arose: whose sperm it was that Lisa used? The reframed question : who was Terri's father, hidden in the jar? Sounds legal? Yes, it came from the law. The situation was that the couple was living on state funds, under a child support legislation. It requires any parent, who receives child maintenance benefits from the State, to cooperate with the Child Support Agency in naming the unrevealed father of the child. In our old, orthodox, primitive, unscientific times, the answer was easy. Why! Husband is the father of the child. But in our perfecting world, anybody could have been the father of a child. He may be anywhere in the world, even in a pickle jar, or may have to be tracked down through the pickle jar. Conan Doyle's Sherlock Holmes, if alive would have refused to use his amazing powers to trace the path from the pickle to the parent.

But here again the famous thin line distinction of law had come in. Had Lisa's pregnancy resulted from a sperm donated by a licensed fertility clinic? If so, she would not have been questioned. But no such clinic was willing to oblige her; the clinics may have their own legal constraints or the usual legal cliché: no provision herein for a Lesbian. So the child support Agency went on questioning the two women: whose sperm was it? The respective fathers were required to pay maintenance for the two children. If the mother did not help the Agency to track down the fathers, their state support would be reduced by 40 per cent. Lisa was reluctant to name him, as **he was in prison for arson and burglary and she did not want him to be in any way near her.** A huge genetic performance!

As I said, I do not know what happened after May 1997. But here are some very interesting side lights.

There is an organization called "Stonewall" which supports and fights for "the rights" of the gay community i.e. the homosexuals. They said, **it was the right of Lisa and Dawn to live together as married partners and "found a family"**; and that they were being constitutionally discriminated against, simply because they had to resort to a pickle jar, due to the refusals from the licensed fertility clinics. Here is the Stonewall dictum **"we think it should be possible for a lesbian couple to contract to be the two parents, just like heterosexual parents with fertility problems."** Lesbian - contract - fertility parent ..... Ponder, my reader.

In the story published in 'Independent' in May 1997, Dawn is reported to have told the "Evening Telegraph" as local paper, "Our daughter Terri Leigh Ann is getting a good upbringing and we have nothing to be ashamed of. It will be the same with the new baby." The baby here was the one which was then growing up within the then five months pregnant 'partner' Dawn. "We have a loving and stable relationship in which to bring up children." Dawn had said to the Evening Telegraph. She continued,

"We wanted a sister or brother for Terri Leigh Ann and we did not want there to be a big gap between them. **We want Terri to go out with boys. If I have a son, he'll go out with girls. We are not going to give them what you would call a gay upbringing."**

Ponder again, my reader! This is the end product of the scientifically progressive civilization! When Dawn says, Terri would go with the boys, "to go with" has a special meaning viz to have sex. "To go on a date" has the same meaning. I have seen live T.V. programmes in U.S.A. where the teacher teaches the budding youthful school girls, what precautions they should take when they go on dates, to avoid pregnancy... and AIDS; and where condoms are sold in school compounds. There are schools which put condoms in the lunch boxes they supply to students!

We in India have already imported this free (i.e. licentious) culture. ("Liberalisation" as we call it). I have heard, in Bombay, girls of rich families giggling out, "Oh! we are going on a picnic and we will be real lesbians" . There are private hiring places nearby colleges in Bombay, providing conveniences for sex amongst students. There are organised open sea shore spaces where sex is indulged in, with dark open sky above. The sanctity of sex and marriage is gone.

In the English story of Lisa and Dawn, they say they will not bring them up as gays; but allow them 'to go out' with the opposite sex! How they will do that is a 64 million dollar question. Will not the children see their parents acting as lesbians? With the wild publicity of the hoary affair, what will be the effect on the growing psyche of the children? Particularly when their school mates will tease them as "pickle jar babies"? What will be the genetic traits of Terri, whose father was a jail bird for arson and burglary?

The Independent's Report concludes, "But some pro-family groups were shocked. Yvonne Stayle of "Concern for Family and Womenhood" said, "It is devilish, absolutely disgusting and against nature."

But Madam Yvonne! Is it not your own civilization and its thinking that are responsible for this 'devilish' and 'disgusting' state of affairs? Was it not 'against nature' to throw the sanctity of sex to dogs, by encouraging the youths to indulge in free and licentious sex? Was it not devilish to invent the pregnancy preventing pills and equipments, and provide devilish licence 'to go out'? Was Lord Jesus Christ babbling when He said,

**"You have heard that i was said, 'you shall not commit adultery' But I say to you that every one who looks at a woman lustfully has already committed adultery in his heart."**

Was He babbling or was He proclaiming a Law of God, on which the operation of the universe depends? That Law, we violate every second and when the violation throws us into the bottomless pit, why are we howling and yelling? The blame does not lie with Dawn and Lisa. It lies at the door of the Godless thinking of our so called scientific civilisation, which has now brought the whole mankind to the brink of disaster. We welcomed the surface scratching of Nature by Newton, Darwin and Freud with open arms, pushing away the divine Laws of God spoken through the words of the Prophets and Seers and Saints; Hear, ye hypocrites! The prophecy of St. Paul :

"..... they became futile in their thinking  
and their senseless minds were  
darkened. **Claiming to be wise they  
became fools**, and exchanged the  
glory of the immortal God for images  
resembling mortal man or birds or animals or  
reptiles.

.... **"they exchanged the truth about  
God for a lie....."**

"For this reason God gave them up to dishonourable passions. **Their women exchanged natural relations for unnatural**, and the men likewise gave up natural relations with women and were consumed with passion for one another, men committing shameless acts with men and RECEIVING IN THEIR OWN PERSON THE DUE PENALTY FOR THEIR ERROR."

- Romans 1-21 to 27.

The due penalty has arrived not only in the person of man, but on the whole of mankind. Disaster is round the corner.....

But so also the Divine Intervention.

**Come down Oh God! Is it not high time to carry out your promise, that you will arrive when Adharma prevails? Why are you forsaking us oh Lord? Come with thunder and lightening if you like, but come you must... now!**
